# of vents: _____

# of columns: _____

Type of Floor:
❒ Dirt ❒ Concrete

The contractor's representative has fully explained the merits of the encapsulation system. I understand a CleanSpace, crawl space encapsulation system will isolate the home from the earth completely and permanently. The humidity level in the air will be reduced, removing an integral element needed for mold growth, however the encapsulation system does not claim to be a mold mitigation system. Wet crawl spaces require a drainage system. A SuperSump system will remedy the problem with water below the encapsulation system. I fully understand and accept the transferable 20 year warranty. There will be no charge for service calls on any tears or holes in the CleanSpace liner, in the unlikely event this occurs. Sump pumps are covered under a separate manufacturer warranty. Installation of the system does not include extending discharge lines, or electrical work unless specified. Contractor is not responsible for frozen discharge lines without an IceGuard, water once pumped from house, or condensation if windows/vents are not sealed. **Payments to be made in full upon completion.**

We Propose to furnish material and labor—complete in accordance with above specifications, for the sum of:

_____ dollars $ _____

Deposit Required $ _____ Deposit Paid $ _____ Balance Due Upon Installation $ _____

All material is guaranteed to be as specified. All work to be completed according to the standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Our workers are fully covered by Workmen's Compensation Insurance. Homeowner assumes all responsibility for damages due to breakage of any hidden fuel/utility service lines, though we will do our best to avoid such damage. All proposals based primarily on homeowners description of problem.
